

TINLEY FESTIVAL OPENS FRIDAY

LOCAL WOMAN DESCRIBES HER
ESCAPE FROM OCCUPIED GERMANY**Catherine Warning
Dies Aug. 19 At
St. James Hospital**

Mrs. Fred (Catherine) Warning (nee Kinyri), well known Frankfort resident, passed away last Thursday in St. James hospital in Chicago Heights after suffering with a broken ankle sustained in a fall in her home. She was 80 years old on May 17, and was born in Pueblo, Colo., moving to the vicinity of Mokena as a child with her parents.

Mrs. Warning was united in marriage to Fred Warning May 8, 1895 and lived on a farm west of Mokena from where they moved to Frankfort 46 years ago. At that time he established one of the first garages in the village.

She is survived by her husband Fred, one son, Raymond, one sister, Mrs. Ida Hansen, three grandchildren and three great-grandchildren. She was preceded in death by her daughter Mrs. Fern Hunter and a grandson. She was a member of the Royal Neighbors Camp, 6063, Eastern Star and Daughters of the G.A.R., also a member of the local Methodist church and W.S.C.S.

The funeral was held Sunday afternoon from the Frankfort Methodist church at 2 p.m. with the Rev. Ralph Steele officiating. Burial was in Pleasant Hill cemetery, Frankfort.

HIWAY MARKET
OPENS AT WOLF
RD. AND RT. 30

A new fruit and vegetable market will open today on the northwest corner of Wolf road and U.S. 30. To be known as the Lincoln-Way Fruit and Vegetable Market, it is owned and operated by Mr. and Mrs. Melvin Perzee. The new market will carry fresh fruit direct from Michigan and vegetables fresh from local farms. It will be open every week day from 2 p.m. until 9 p.m. and will be closed on Sunday.

Mr. and Mrs. Perzee occupy the former Cleveland farm across the street from the market.

Corn Elevator Can
Harvest You Too

Many a farmer who's careful with his corn picker has forgotten that his elevator is loaded with accident hazards, too.

Nine Illinois farmers were injured by elevators last fall, according to Farm Adviser Carl F. Mees. And you may be one of this year's victims if you forget the danger points around your elevator.

There are plenty of moving parts that can't be covered, Mees says, but there's one hazard you can shield - that's the tumbling rod. It's important that you make the joints long enough to cover the joints, because they're most likely to catch you or your clothing.

Always make sure you've unfastened the lift chains or cables before moving the wagon from under the hoist. And stay away from the gears.

Mees says it's a good rule never to allow small children around the elevator. Let them watch from a safe distance - or better yet, give them something safer to do.

Joliet Band Wins
Top Honors Nine
Consecutive Times

Mr. and Mrs. N. M. Radakovich of Joliet who spent a summer vacation with her parents, Mr. and Mrs. Frank Coppotelli Sr., in Green Garden Twp., went to Washington D.C. with the American Legion Harwood Post band of Joliet. The 76 piece unit went to the capital to compete with other Legion bands and this is the ninth consecutive time that band has come away with top honors, as National champions.

Nick Radakovich is a tuba player with the band which is directed by Archie McAllister.

The band was organized as a memorial of those from Joliet who served in both World Wars. Its membership today also includes Korean war Veterans. It has competed and won top honors in San Francisco, New York, Miami, Philadelphia, Los Angeles, and St. Louis.

CHICKEN DINNER

A chicken dinner will be served on Sept. 30 at St. Johns Evangelical church in Peotone. The public is invited to attend.

Pet Parade Will
Offer All Dogs
Chance At Prize

Every dog in town will have a chance to be a hero to his master when Grobarcik's Royal Blue Store sponsors a Pet Parade in Mokena on Saturday, Sept. 18 at 1:45 a.m.

Pedigreed pooches and "just plain dogs" will walk side by side and will have an equal chance at a long list of awards. The only qualifications are that the dog be accompanied by his master, and that he be properly entered in the parade.

Entry blanks and rules for the parade may be obtained from Grobarcik's.

The dog entered doesn't necessarily have to be cute, ugly, large, small, a society matron or a gentleman at large, all it has to be is just a dog. Your dog may be the one that wins a grand prize.

Dogs will parade through neighborhood streets so they can be "shown off" to the public, and then will pass through a reviewing ring where judges will award a number of prizes.

Judges will pick winners in the following events:

Longest dog, Cutest dog, Longest haired dog, Longest Eared, Longest tailed, The Smallest, Shortest hair, Shortest eared, Shortest tail, Best tricks, Most comically dressed and the most Unique dog.

All pets entering the parade should be registered at Grobarcik's before Sept. 17, in order to be eligible for a prize.

HOMER WOMAN
INJURED BY
FALL ON TRAIN

Mrs. Mark Haney of northwest Homer is recuperating at her home following an accident which occurred on a train when the family had started on a western vacation trip.

Mrs. Haney, who is the wife of Dr. Haney, Lockport dentist, fell as she was descending the steps of an observation car. She fractured the bones of her ankle, and was taken to a hospital near Amarillo, Tex. After recovering sufficiently to be moved she was brought to her home. Her limb will be in a cast for several weeks as it was a complicated break.

Charles J. Francis
Weds Chicago Girl

The parents of Miss Isabel Margaret Heep, Mr. and Mrs. Frank J. Heep of W. Ardmore ave., in Chicago, recently announced the marriage of their daughter to Charles James Francis, son of Mrs. Ann Francis and the late Fred A. Francis of New Lenox.

The wedding took place Aug. 17 at St. Ita Church with a reception following at the Lake Shore Drive hotel.

Maid of honor was Miss Patricia Palbick and Mrs. Patricia Heep and Mrs. Carolyn Hendry were bridesmaids.

Fred C. Francis attended his brother as best man, Usher Cedervall and Frank Heep.

The young couple will return to the University of Illinois to complete their studies following a honeymoon at Lake Geneva, Wis.

Announce Teaching
Staff at Mokena
Public School

Names of the members of the Mokena grade school teaching staff for the fall term were announced today by Mrs. Elizabeth Cappel, principal of the school.

They are Minnie Pester, first grade; Mary Cel Burke, of Joliet, second grade; Anita Lantry of Joliet, third and fourth grades; Gertrude Lehmann of Joliet, fourth and fifth grades; Joseph J. Mucci of Chicago, sixth grade; Herbert J. Wrath, seventh grade and physical education and Glen Miers of Hartford, Pa., eighth grade and music.

Zabrida's assurance, "You don't have to worry now. You are in a free country."

Mrs. Kreb's husband is deceased and her daughter died in childbirth at the age of eighteen.

A moral to the story might be a quotation from Daniel Webster which was made at his first Bunker Hill oration, "The principle of free government adheres to the American soil, it is bedded in it, immovable as its mountains."

GARDEN CLUB TO
HOLD TWO DAY
FLOWER SHOW

The New Lenox Garden club is actively preparing for their annual flower show "Harvest Harmony." The entire club will participate in the activity. Entries will also include surrounding towns and villages. The New Lenox Garden club will again compete with other shows in the state for the Green ribbon which they won in 1950 for the most outstanding community flower show. Mrs. Walter Gobush, president of the Garden club is chairman of the show and Mrs. Grace Sweet and Mrs. Lloyd Berlin are co-chairmen. Other chairmen are Mrs. Thorval Larsen, refreshments; Mrs. O. V. Rowe, Entries; Mrs. U. L. Henry, Placings; Mrs. Fred Scheel, Market; Mrs. Lee Frey, Conservation; Mrs. Walter Houchins, Schedules; Mrs. Clarence Wise, decorations; Mrs. Glenn Vally, Fruit and Flower Guild; Mrs. Joseph Custat, Tickets; Mrs. Frank Vally, Photographs; and Mrs. Joseph Jencon, publicity.

The show will be held Sept. 15 and 16th from 2 until 9 at the Methodist camp grounds. Orders will be taken for daffodil and tulip bulbs.

The flower show is not limited to members of the Garden club. Any amateur is invited to exhibit but is permitted only one entry in each classification.

Section A - Horticulture will cover specimens which must be grown by the exhibitor. This division will include 16 classes of flowers, fruits and vegetables. Each variety will be judged separately.

Section B will contain artistic arrangements and the materials need not be grown by the exhibitor. This group of entries is to have 11 classes of entry.

Section C is devoted to junior exhibits and has an age limit of 16 years or under. This group will contain five classes of vegetable and floral arrangements for judging.

There will be eight tables decorated by other clubs at the invitation of the New Lenox group and a special exhibits group. Entries will be received from 8 to 10:30 a.m. on Sept. 15th and all entries must be in place by 10:30 a.m. No entry exhibit may be removed before 9 p.m. on Sept. 16th.

Six awards will be made during the two day affair.

Music Associations
Series Of Concerts
To Start Sept. 12

Joliet-Will County Music association will present another series of concerts this year at Pershing school auditorium, Joliet. Membership drive for the 1954-55 series will begin Sunday, Sept. 12, with a buffet supper for volunteer workers.

Last year's season brought such outstanding musical events as an appearance of the Houston Symphony orchestra to Will county audiences.

Notices went out in the mail last week to regular members of the association. Renewals of memberships will be accepted by mail, according to Dr. Bernard Mortimer of Joliet, Civic Music president. During a week's concentrated campaign, Sept. 12 to Sept. 18, the organization will offer membership to all residents of the county and nearby areas.

No admissions are available to individual Civic Music concerts. Membership cards go to all persons who enroll and these cards serve as tickets to the concerts.

Rearrested On Bad
Checks Charge;
Now Awaits Trial

Jesse Carney, who was arrested on a bad check charge last February and served a sentence of six months at the Illinois State farm was released on Aug. 13th. He was immediately rearrested on the same day with seven more check charges against him. In the addition to the present charges against him there are six additional letters received since his incarceration threatening court action.

Carney is now in Cook county jail awaiting trial before the Grand Jury.

Sept. 9 is the date for the annual roast beef dinner given by the W.S.C.S. of the Tinley Park Methodist church. Serving from 5 to 8 p. m. Everyone is invited.

Teaching Staff For
Grade School Is
Announced By Supt.

When the New Lenox Grade Schools open on September 7, five new classroom teachers, and two new music teachers will meet the pupils. Two of these will replace teachers who left the New Lenox school for positions in Joliet schools and three are additions made to the staff so that combined graded rooms could be eliminated.

The Havenschool staff of teachers as announced by Supt. John Oster will consist of Mrs. Evelyn Yahnke, grade one; Mrs. Helen Holt, grade six; Mrs. Mary Bosson, grade seven; and Michael Kruck, building principal, grade eight. Mrs. Margaretta Davies who taught fifth grade for the last two years will teach third grade. New teachers in the Haven school are Mrs. Eleanor Mundt in fourth grade, Miss Jean Cialini in fifth grade and Robert Fahrner, who will teach in grades seven and eight.

In the Oakview school, Mrs. Geneva Oster, Mrs. Marie Monge, and Mrs. Elizabeth Morrison will return as teachers of kindergarten, grade one and grade four respectively. New teachers in this school will be Mrs. Helen Lichtenwalter, grade two and Mrs. Kathleen Jelenich in grade three.

Miss Kathleen Hoffman, speech correctionist in the New Lenox schools for the last two years, has accepted a position in the Long Beach, California system. Up to the present time no replacement for her has been secured.

Mr. Robert Taylor, director of the Lincoln-Way high band, will also direct the local grade school band. Mrs. Betty Tryon, who will teach vocal music in the Lincoln-Way high school will also teach vocal music in the New Lenox grades.

Kohlhagen Family
Reunion Is Held
Aug. 29 In Joliet

The Kohlhagen family held its reunion Sunday, Aug. 29 at the home of Mr. and Mrs. Charles Caley of Joliet. Dinner and supper guests were Mr. and Mrs. Walter Homering of Long Beach, Calif., Mr. and Mrs. Alvin Kohlhagen and son Donald of Bloomington, Mr. and Mrs. George North and son Bruce also of Bloomington, Mel Kohlhagen of Rockford, Miss Delores Cooper of Mokena, Billy Koerner and Delores Zanella of Joliet. Also present were Willard Berens, Mr. and Mrs. Harry Kohlhagen and Mr. and Mrs. Peter Sinclair of New Lenox.

Mr. and Mrs. Walter Homering returned to Long Beach after enjoying a two weeks vacation with her parents, Mr. and Mrs. Harry Kohlhagen of New Lenox.

National Tea Sales
Up 12% Over 1953
With Fewer Stores

The consolidated sales of National Tea Co. for the four weeks ended Aug. 14, 1954, amounted to \$39,593,332 as compared with \$35,327,780 for the four weeks ended August 15, 1953, an increase of 12.07 per cent.

Sales for the year to date amounted to \$312,100,942 as compared with \$280,414,285 for the corresponding period in 1953, an increase of 11.29 per cent.

The number of stores in operation decreased from 730 at August 15, 1953, to 721 at August 14, 1954.

Medical Missionary
To Visit Community
Church In Marley

Dr. Norman Abell, a medical missionary appointee of the American Baptist Foreign Mission board will visit the Marley church on Friday, Sept. 10. At the meeting, to be held at the church at 8 p.m., Dr. Abell will be presented with a sum of money from the Women's Missionary Society and from the church, to be used for the purchase of equipment for his hospital in the Chin Hills of Burma.

Dr. Abell completed his training last spring and will proceed to mission field next month. Some will remember meeting Dr. Abell at the Freeman Auction sale during his previous visit to Marley. All are invited to attend the meeting.

WINS TRIBUNE PRIZE

Mrs. Robert Ekins, RFD 1, Mokena, Illinois has been awarded a \$5 prize by the Chicago Tribune for her Coffee Parfait, recipe, scheduled for publication in the column conducted by Mary Meade, Tribune cooking editor, on September 9, 1954.

Harvey H. Pohlman
Appointed to CCFHA

Harvey H. Pohlman of Palatine is the newly appointed member of the Cook County Farmers Home Administration Committee, Robert C. Becker, the agency's county supervisor at Woodstock announced this week. The appointment became effective July 1, 1954.

The other two members of the three member committee are Henry Metz of Arlington Heights and Howard C. Rahlfa of Elgin. Each member is named for a three year term, and one appointment expires each year. No member completing a three year term can succeed himself.

Every agricultural county in the country has such a committee to help the Farmers Home Administration county supervisor adapt the agency's loan policies to local conditions, including farm credit needs.

The Farmers Home Administration makes loans to family-type farm operators to buy, improve, or operate efficient farms, or to construct or repair farm water facilities needed for profitable operation. Special livestock loans are made where temporary credit is needed to enable the operator to remain in operation. The agency also makes emergency loans in counties or states that have been designated by the Secretary of Agriculture as areas where emergency credit is needed. However, the agency does not make loans of any type to any applicant whose credit can be handled by other credit sources.

Before any money can be borrowed through the agency, an applicant must have the approval of the county committee. In the case of a farm ownership loan, the farm to be purchased, enlarged, or improved must also be approved by the committee, the county supervisor explained.

DEATH CAUSED
BY BOBBY PIN

As a result of injuries on a fall at the home of a daughter Tuesday evening, Mrs. Henry Ebert of Blue Island, passed away Friday morning, Aug. 27.

In falling, bobby pins in Mrs. Ebert's hair were stuck in such an unusual manner as to cause them to pierce the skull and damage the brain.

The Eberts were 4-H fair guests of Mr. and Mrs. Albert Reeves and had planned to attend the Peotone fair with them before the accident occurred.

Mrs. Reeves is a niece of Mrs. Ebert.

Fritz Lehmann To
Join Brother At
College in Ohio

Fritz Lehmann, the son of Mr. and Mrs. Fred Lehmann, left last Sunday on a ten-day trip to New Orleans via Memphis St. Louis and other towns. For the past 16 months he has been employed by the Illinois Central Railroad as a car tracer, but he terminated his employment there, in order to enter Oberlin college, Oberlin, Ohio, on September 15th. He will be a freshman at Oberlin, where his twin brother, Jerry, will be a sophomore.

After a weeks wedding trip to northern Wisconsin, they left Sunday for Columbus, Ga., where the bridegroom is stationed with the army at Fort Benning, and where they will reside.

The bride is a graduate of the Joliet Township high school, Iowa Wesleyan college at Mt. Pleasant, Iowa, and is a member of Zeta Tau Alpha sorority. She taught for the past two years in the Joliet public school. PFC Drotts graduated from East high school in Rockford, Iowa Wesleyan college and is a member of Sigma Phi Epsilon fraternity.

Guests came from Rockford, Chicago, Oak Park, Joliet, Manhattan, Mokena, Blackstone, Oak Lawn, Elwood and McLean, Illinois, Michigan, Iowa and Indiana.

Mr. and Mrs. Ronald Crisman, sister and brother-in-law of the bride entertained the couple at a rehearsal dinner in their home August 20.

EARLY COPY PLEASE

Next Monday being Labor Day the shop and office of this paper will be closed and we urgently request that copy reach us this afternoon, Sept. 2 in order that we may be able to have it set Friday. Copy that cannot be sent in today must be received by Friday noon.

FOUR DAY AFFAIR HIGHLIGHTS
VILLAGE LABOR DAY WEEK END**Carnival Rides, Flag Presentation
Parade, Waterfight To Be Featured**

The last community affair for the summer will be held in Tinley Park this week end starting Friday evening and closing with a grand display of fireworks Sunday night. There will be special events each afternoon and evening - a water fight between the Homewood Acres firemen and the Tinley Park firemen will be held Sunday afternoon, 3:30, which always is most interesting.

The Tinley Park Recreation commission and its active committees have had a busy week setting up and making final plans for this, their annual Fall festival, which will be held in Memorial park in Tinley Park. Here is a last opportunity to have a pleasant holiday week end by staying at home and not having to combat heavy traffic on highways, and if anyone in this area and Tinley Park are bored this week end, it won't be the fault of the Recreation commission because they have gone all out to make this a happy occasion for all.

There will be five big rides for everyone from six to 60 - Ferris Wheel, Tilt-a-Whirl, Merry-Go-Round, Boat ride and chair-o-plane.

A large food booth on the grounds will provide a lunch or a break away from the festivities for this purpose. This booth will be under the capable management of Rudy Patan, of Rudy's Fountain and Lunch room. He will be assisted by members of the PTA and other volunteers.

There will be 30 different concessions for the enjoyment of young and old alike. Those who have been active in making the general arrangements are: Henry Bettenhausen, Ruth Frieftag, Dick Nobel, Ruth Johnson, Aristo Francis, Selby Hirsch, Walter Fierke, George Klaus, Bill Ken-dall, Mrs. Sealey, Frank J. Jedd, Tom Noonan, Norman Jeffords, Harold Moore, Ed Moss, Wanda Cloud and Bob Chana.

Sunday afternoon the Girl Scouts and Brownies will be presented flags of their organization by the Commission and the VFW Auxiliary will present these girls with new American flags. These presentations will be supported by the American Legion Honor guards, the VFW, Boy Scouts and the police department.

The big event Monday will be the parade, starting at 2 p.m. It will assemble at the Beauty Lumber Co., and the route will be north on Oak Park Ave., to 171st St., east to Memorial park. Mike Haber chairman of the parade committee, is very happy over the wonderful response they have had from businessmen, churches, service clubs, ladies auxiliaries, Boy and Girl Scouts and fire departments. One of the features of the parade will be the Crack Drum and Bugle corp from Mokena.

Other hard working members of the parade committee are: Ed McCarthy, Gil Cloud, and Ed. White. They will present beautiful trophies to the winner floats or marching units.

The person receiving the grand prize award may have their choice of either a freezer, air conditioner, washer, drier, refrigerator or \$350 worth of small prizes.

The slogan this year seems to be, "Let's save our own lives by staying at home and having a good time by attending the fall festival." Everyone in this area is invited to join in the festivities at Tinley Park.

TO BE MARRIED
SEPT. 11 IN TINLEY

Dr. and Mrs. George Lengerich are announcing the engagement and approaching marriage of their daughter Mary Lou to Mr. Charles H. Jardine, son of Mr. and Mrs. William E. Jardine of Chicago.

The wedding will take place Saturday morning, Sept. 11 at 11 o'clock in St. George Catholic church in Tinley Park. Father Cecil Kiop, pastor of St. Mary's church at Mokena will officiate.

Invitations have been sent out for the wedding and the reception which will be held in Saenger hall in Tinley Park following the service.

ATTEND INTERNATIONAL
CONVENTION

Mr. and Mrs. Don C. Hall Jr. of Mokena are attending the international convention of the International Brotherhood of Electrical Workers at the stockyards amphitheater in Chicago. There are over 6,500 delegates from all over the world attending this convention according to Hall who is an alternate delegate from Gulfport, Miss., where he is secretary of the electrical local.

Maue PTA board members were hostesses to an executive board meeting of the south-western area council, district 19 of the Parent Teachers association held at the school Tuesday evening, August 31.

Following the routine business, programs for the coming year were approved.

Mr. Stehewag took advantage of the rainy weather last week which kept him out of the fields and made five benches and two tables for use in the school basement. The addition of benches and tables to the basement will increase its usefulness as a lunch room, club room, recreation center and as a place to show movies with the Maue PTA's gift to the school last year.

There will be a meeting of the executive board of the Maue Parent Teachers association at the Charles Henning home Wednesday evening, September 8.

Charles Henning returned Thursday from Menominee, Mich., where he had resided since Sunday while attending the Fine Safety school at the Anslu Chemical company in Marinette, Wis.

William Keweloh, 87, passed away Thursday of a lingering illness in the home of his daughter, Mr. and Mrs. William Felsch, with whom he resided.

Services were held in Fickel and Trull chapel in Oak Forest at 2 P.M. Saturday. Interment was in the Beverly cemetery.

Surviving besides Mrs. Felsch are a daughter, Mrs. Joe Zigmont of Paletine, a son, William Keweloh Jr. of Tucson, Ariz., three grandchildren and a sister, Mrs. Maria Wehner in Renscheid, Germany.

The Edward Mrosek visited with Mr. and Mrs. Jim Connolly in Oak Forest Friday evening.

Mr. and Mrs. Elfr Polovina and family of Calumet City were Sunday evening guests of Mr. and Mrs. Edward Mrosek.

Mr. and Mrs. John Bemas and family of Chicago were Sunday evening guests of Mr. and Mrs. Stuart Culp.

Friends of Mr. and Mrs. Henry Felsch gathered at their home for an all day picnic Saturday. Present were their daughters, Patsy and Sandra; his parents, Mr. and Mrs. William Felsch; Mr. and Mrs. Peter Irlbacher; Chicago; Mr. and Mrs. Ed. Irlbacher; children Judy, Kathy, Janet and Linda; Chicago; Mr. and Mrs. Bill Paevic, children Susan, Billy and Bobby of Westchester; Mr. and Mrs. Don Olson, children Lynn and Wayne, Chicago; and Mr. and Mrs. Ed. Vasic and daughter Gail.

Hostesses are Mrs. Earl Christensen, Mrs. Ernest Gander and Mrs. Fred Gast.

Shirley and Scherril Smit and Mary Ann Wieland spent the week end with the former's grandparents, Mr. and Mrs. Charles Heuser at Peotone.

Mr. and Mrs. Melvin Mueller of Monee and Mrs. John Bauch and Donald attended the Wisconsin State Fair Sunday.

Miss Dolores Schneider of Grant Park spent several days last week at the Irvin Burmeister home.

Mr. and Mrs. Clinton Mark and Mr. and Mrs. Lloyd Heiser attended the Wisconsin Fair last Friday.

David Hasenjaeger of Joliet is spending two weeks with his grandparents, Mr. and Mrs. George Hasenjaeger.

10:45 a.m. A basket dinner will be taken. After the meeting Carl Toepper showed pictures he had taken of the Ozarks and a film of the same was also shown. Refreshments were served by Rev. and Mrs. Ernest Gander and Mr. and Mrs. Glenn Nagel.

Mr. and Mrs. John Wilkenson and family of Lafayette, Ind., were dinner guests of his sister and family, Mr. and Mrs. Gerald Peek last Sunday. The former's son F. N. Lutz was also a guest. He will return to college in North Carolina shortly.

Mr. and Mrs. William Rahm returned Saturday after a 5,000 mile motor trip through the central states and into Canada during their 10 day vacation. They were accompanied by Mr. Rahm's cousin William Armourst of Trumann, Minn., on the trip into Canada where they stopped to visit the Henry Bruggemans. Mrs. Bruggemans will be remembered as the former Marie Stauffenberg. They then travelled to Regina where they toured the Paramount building in that city.

The Women's Guild will meet at the church parlors this afternoon, Sept. 2 with Mrs. Gilbert Sippel presiding. Mrs. George Buck is devotional chairman and her topic will be, "Your need of God."

Mr. and Mrs. Harry Anderson and daughter Karen enjoyed a vacation trip to Niagara Falls, into Canada where they had lunch one day. They toured the Ford Museum at Dearborn, Mich., and also the Kellogg plant at Battle Creek, stopped at Sawyer, Mich., where arrangements were made to meet their daughter and son Judith and Richard. All enjoyed a swim at Warren Dunes where they met Jack Ludes. Richard rode home with Jack. George Brier who is making his home with his daughter in Chicago, spent the week-end here with his daughter, Mrs. Clarence Kramer. Prior to that, he had spent 2 weeks with the family, while his daughter in the city was on vacation. Mr. Brier is a former resident of Orland.

After visiting a month with her brother, Mr. Sgt. Frank Robson and family in Rapid City, So. Dakota, Martha Robson and her brother and family returned to Orland last Sunday. While here, Frank (Bud) visited friends and relatives in this area and Chicago. They returned to Rapid City Friday, where Frank is stationed at Ellsworth air force base.

Harry Heiting spent part of his vacation building an extension to his garage.

Orland Park 211W

Mr. and Mrs. Franklin Kruspe and children attended a party Sunday in the home of Mr. and Mrs. Herbert Albers in honor of the latter's birthday.

Mr. and Mrs. Herman Kruspe attended the state fair last week and were among the 125,000 who listened to President Eisenhower when he spoke at that time. After the fair, the Kruspes motored to Salem State park and enjoyed viewing the early years of Abraham Lincoln's life.

Mrs. Herman Kruspe, past 8th district director of the American Legion auxiliary, and Mrs. G. Zerbs, past president of the Orland Park unit and President, Mrs. R. Nitsche, attended the initiation of officers of Green Oak unit and post at Oak Lawn Saturday evening.

David Show, son of Mr. and Mrs. Ralph Show of Palos Park, and his two cousins celebrated their birthdays at a party in the Show home August 27. David

and Holly Show of Matteson were each one year old and Lynn Frochner of Peotone was two years old.

Mr. and Mrs. Stewart Loebe and party of friends enjoyed an outing at a lodge in Park Rapids, Minn. The vacationers enjoyed fishing, etc.

Mr. and Mrs. Frank Sayers. Mr. and Mrs. Elmer Rogers and daughters visited with Rev. and Mrs. Henry Rompel at their home in Morris, Ill. The Rompels are feeling fine and wish to be remembered to all their friends in Orland.

18 members of the WSCS of Orland Park Methodist church motored to Maywood, Thursday morning, August 26th to meet at the home of Mrs. John Mullen. Mrs. Mullen formerly resided in Orland when her husband was pastor of the Orland Methodist church. A pot-luck luncheon was served at noon. The usual devotional period followed the luncheon and the regular business session. Mrs. Mullen was happy to have the opportunity of meeting friends from Orland and wants to be remembered to those who were unable to attend the meeting.

Yunker school, district 134, opened, Monday, August 30.

Mr. and Mrs. Harry Anderson and daughter Karen enjoyed a vacation trip to Niagara Falls, into Canada where they had lunch one day. They toured the Ford Museum at Dearborn, Mich., and also the Kellogg plant at Battle Creek, stopped at Sawyer, Mich., where arrangements were made to meet their daughter and son Judith and Richard. All enjoyed a swim at Warren Dunes where they met Jack Ludes. Richard rode home with Jack. George Brier who is making his home with his daughter in Chicago, spent the week-end here with his daughter, Mrs. Clarence Kramer. Prior to that, he had spent 2 weeks with the family, while his daughter in the city was on vacation. Mr. Brier is a former resident of Orland.

After visiting a month with her brother, Mr. Sgt. Frank Robson and family in Rapid City, So. Dakota, Martha Robson and her brother and family returned to Orland last Sunday. While here, Frank (Bud) visited friends and relatives in this area and Chicago. They returned to Rapid City Friday, where Frank is stationed at Ellsworth air force base.

Harry Heiting spent part of his vacation building an extension to his garage.

KEEP CUT FLOWERS LONG AS POSSIBLE

You should not expect to keep cut flowers longer than they would live on the plants says J. R. Culbert, flower specialist at the University of Illinois College of Agriculture.

For a morning glory that would mean minutes; day lilies, hours; roses, several days; and orchids, weeks.

To stay fresh, flowers must first be kept full of water. They live on the food stored in the flower, leaves and stem. When that supply of food is gone, the flower dies.

You'll get best results if you cut mature flowers in late afternoon, Culbert says. Flowers that are cut too young will not have stored enough food, to last long. And the life of flowers cut when they are past maturity will also be shortened.

Cut flowers with a sharp knife or shears. Get them into warm water as soon as you can, and make a fresh stem cut before you

Sunday Services:

put them into the water. Strip off the leaves that will be under water, and let the flowers stand in a dark, cool place at least an hour before you use them.

Flower preservatives are useful, but don't expect miracles from them, the flower specialist says. Most preservatives contain sugar to supply food and chemicals to kill bacteria in the water and to make it more acid.

If you want more information, write to the college of Agriculture, Urbana, for a copy of Flower Growing Leaflet No. 3, "Keeping Cut Flowers."

I remember MOM

she didn't have modern automatic electric WASHDAY CONVENIENCES!

We called her "Washday weary mama!" Poor Mom! She looked as if she'd been pulled through the wringer instead of the clothes—and how her back ached. No wonder... after tugging with the week's wash and pushing that oversized flatiron. I realize now what Mom missed... the wonderful advantages of automatic washday conveniences!

The modern housewife puts her dirty clothes in an automatic washer where they become sparkling clean... transfers them to her automatic dryer for fluffy, radiant drying... and the smooth finishing touch is made with her ironer. Not only do these automatic conveniences keep today's housewife younger... they keep her clothes attractive much longer!

EASY BUDGET TERMS
See modern, automatic washers now at our nearest appliance store or your dealer's.

mount problem is reflected in the increasing number of programs for child guidance and planned recreational activities as well as an increasing interest on the part of legislators, social welfare workers, clergymen and citizens in all walks of life, including physicians. The community front is designed to aid children in the task of social adaptation.

The modern approach is one of constructive treatment, rather than one of punishment. It emphasizes scientific methods of early detection and early treatment in order to minimize the extraordinary cost in dollars and human unhappiness involved in late detection and treatment.

The present day approach sets as its goal the reduction in the number of jails and penitentiaries and the increase in the number of happy homes giving shelter to socially adapted citizens from all walks of life.

Environmental factors seem to loom high in the life of a juvenile delinquent. The economics may vary. In some homes, the child may have too much; in others, too little. Some children may be over-protected, while others just grow without any supervision.

Bad companions are in influence. Having embarked on their own rejection of normal living, they seek to enroll in their clan those children who are susceptible to undue evil direction.

Lack of family solidarity and understanding play a role in juvenile delinquency, regardless of the economic status. A child needs parental direction that inspires love, affection and security.

Regular mealtimes should be a part of every household. Family group recreational activities will do much to create a spirit of cohesion as will church activities.

Teachers and community leaders can contribute to morale building by detecting those youngsters with hostile attitudes to their school companions and to their superiors.

Every parent should know where his child is at all times. The youngster should have trust and understanding, but should be made to feel that he has definite obligations to his parents, teachers, and to his superiors. While in the dependency of his growing years, the child should also be made to feel the inter-dependency of being an integral part of family life.

With the cooperation of the family, the school and the church, juvenile and, ultimately adult, delinquency can be reduced.

List Lectures At Ill. Institute

A series of eight monthly lectures on mechanics will be presented during the 1954-55 school year by the mechanics departments at Illinois Institute of Technology and its affiliate, Armour Research Foundation, Chicago.

The series will open Oct. 6 when a joint meeting will be held with the Illinois section of the American Society of Civil Engineers.

S. B. Batdorf, manager of the development division of the materials engineering department of Westinghouse Electric corporation, will speak on "The Mathematical Slip Theory of Plasticity as it Appears Today."

All lectures will be presented at Illinois Institute of Technology, 3300 S. Federal street, except for the final program on May 4 at Northwestern university.

The Dec. 8 lecture will be "Helmholtz and Taylor Instability" by Garrett Birkhoff, chairman of the Harvard university department of mathematics.

PROCLAMATION

Whereas, the school children of the State of Illinois will return to regularly scheduled sessions in September, and Whereas, some of these children will be venturing to school for the first time; and

Whereas, all the children will be crossing the streets in various communities four times daily enroute to and from school; and Whereas, many motorists in the communities may not be aware that school is again in session

Now, Therefore, I, William G. Stratton, Governor of the State

of Illinois, do hereby proclaim and full cooperation to greater A.D. 1954. Sept. 1-7 "SCHOOL'S OPEN consideration for children in traf- WEEK in Illinois, and I urge all fic. citizens to give due recognition Dated this 1st day of Sept.,

The A.O. Smith HARVESTORE

glass-surfaced steel inside and out

the world's first mechanical bottom unloading all-crop storage structure

Preserves pasture to feed during drought
Saves forage crops from excessive rain

No Spoilage: The Harvestore is positively sealed to exclude air. This provides oxygen-free storage, prevents damage from mold, insects, and rodents... preserves freshness of crops, retaining all essential nutrients... prevents heating. It stores silage, lush legumes and grasses... any crop... without spoilage. What goes in at the top, comes out at the bottom in perfect condition!

Saves Labor: The Harvestore's mechanical bottom unloader delivers stored crops or silage in the same order as they were put in... at the flip of a switch. Feeds perfectly to mechanical feeding systems. No hand pitching, no hard work, no digging to uncover a trench. The Harvestore unloads itself. Type of power is either electric motor or gas engine, as you wish.

LINCOLN ESTATES

Mrs. James Dixon
Telephone Frankfort 4422

Friends gathered at the home of the W. C. Davidsons last Sunday at a party held in the home of Mr. and Mrs. A. L. Guitier of St. Joseph, Missouri who were recently married. Mrs. Guitier, the former Martha Allan, is a sister of Mrs. Davidson.

Among those present were Mr. and Mrs. Kissel Barton of West Chicago, Mr. and Mrs. Julius Brooks, Mrs. Vera Littleton, Mrs. Stella Ward, Mrs. Mary Stop all of Chicago. Also present were Mrs. Julia P. Miller of Plant City, Cal., Mr. and Mrs. W. D. Ashton of Gary, Mr. and Mrs. A. Eggers of Joliet and Mr. and Mrs. Ora Andrews of Frankfort, Mrs. Julia P. Miller and Mr. and Mrs. W. D. Ashton.

As guests of the Davidsons they attended the Music Festival held in Chicago on Saturday and on Monday enjoyed dinner at the Chez Perce in Chicago.

The Ann Rutledge school is scheduled to open Sept. 7. Teachers will be Miss Jean Boleman of Mokena and Mrs. Isabel Davidson.

Mr. and Mrs. Gus Hauser and sons returned recently from a trip to Glendale, Calif., where they visited with Mrs. Hauser's sister, Mrs. Asa Chapman. They then travelled to Hollywood where they spent a few days with Mr. and Mrs. Sam Cohen. On their way back to this area they passed through Medicine Bow, Wyoming and Yellowstone National Park.

Sunday dinner guests of Mr. and Mrs. Otto Neideringhaus were Mr. and Mrs. Eric Davidson of Chicago, Mr. and Mrs. Charles Stevenson and son Jimmie of Park Forest, Mrs. Helen Reilly of Chicago, Master Sgt. Charles Reilly and daughter Roberta of Palatine and son Michal.

Mr. and Mrs. Robert Hauser announce the birth of a daughter Karen Lynn born Aug. 28 at the St. Joseph hospital in Joliet.

Mr. and Mrs. Robert Stadt announce the birth of a son, Aug. 24 at the Mendota hospital, Mendota, Ill.

Miss Joyce Swatek was a week end guest of Mr. and Mrs. Jack Toplewski of Champaign.

Rev. and Mrs. Arthur Contios visited with friends at the Edgewater Baptist church where Mrs. Contios brother the Rev. Sahlin spoke. They then had dinner at the home of her other brother, Mr. and Mrs. Carl Sahlin of Chicago.

Mr. and Mrs. Zeiter and children, with James and William Dixon as guests, enjoyed the week end at Fox Lake.

Mrs. Ida Modeen of Harvey was buried Aug. 26. She was a former resident of Lincoln Estates.

Mission Circle will be held at the Calvary Baptist church Sept. 9th at 1 p.m.

Mr. and Mrs. Wm. Florey of Waupun, Wis., were week end guests of Mr. and Mrs. Ray Florey.

Mrs. Orin Link and sons recently returned from a two weeks vacation at Eagle River, Wis., where they stayed at the home of Mrs. Links mother, Mrs. Beatrice Fee.

CARD OF THANKS
To my many friends who so kindly remembered me with cards and other kind deeds while I was in the hospital and now since I am home, my heartiest thanks. Your kindness I'll always remember.

Anna Hensel

Mr. and Mrs. C. H. Farnham of Urbana and Mr. and Mrs. H. A. Bennett, David, and Mary were guests at the Milton Geuthier home this week.

Mr. and Mrs. Joseph Halla's daughter Ellen of Chicago who is enjoying a vacation from her duties as private secretary for the Western Railroads in Chicago, spent last Monday and Tuesday with them. She had returned from spending some time at Atlanta, Ga.

Mrs. Gilbert Hurley is carrying her right hand in a cast having injured the nerve in it when trying to pry open a window.

Mrs. Margaret Bergman, Front street, is having an additional room built to her home.

The new home of Mr. and Mrs. Andrew Cappel on First street is making good headway. The Cappels sold their farm and home to Robert Fredin. They hope to move into their new home in October.

Mr. and Mrs. Ray Westlund and son Dale and Mrs. Margaret M. Semmler motored to Morton and spent the week end with Mr. and Mrs. Marvin Smith. They are nicely settled in their new home there.

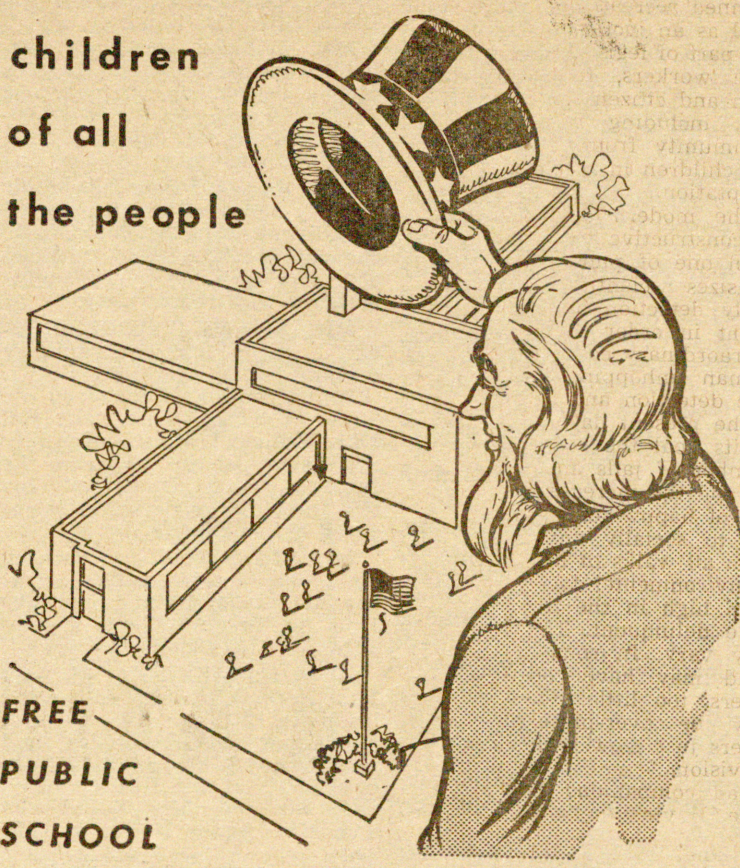

Mr. and Mrs. W. A. Muehler and family and Mr. and Mrs. Harry Mall returned Friday night from a five day motor trip around Lake Michigan and the peninsula.

Mrs. Rose McMahon has sold her home to Mr. and Mrs. James Quinn, who now reside on Parker Ave.

Mr. and Mrs. Leo Rollings of Palos Park have moved with their family to the former Leo Stephens farm east of Mokena. They have four children; Barbara 14, Billy 11, Richard 9 and Royce 7.

Mr. and Mrs. Clarence Immeus, 192nd street, attended a party recently to honor three telephone company foremen who have retired. The group attended the Drury Lane theatre sum-

for all the
children
of all
the people

FREE

SCHOOL

mer play, featuring the personal appearance of movie star Pat O'Brien. Later the party spent the balance of the evening at the Martinique restaurant having supper and dancing.

Miss Florence Mayer entertained in her home in Chicago Aug. 18 at a miscellaneous shower in honor of Miss Mary Lou Lengerich and her approaching marriage. Guests were former classmates of Miss Lengerich of high school and the Wilson Jr. city college. Luncheon was served from a table covered with a white linen cloth centered with a bridal cake. Many gifts were presented the honored guest.

Mrs. Wayne McCleary and daughter Nancy of Aurora were guests of Mr. and Mrs. Albert Cappel last Friday. Mrs. McCleary's late husband was a former principal of Mokena schools. Their daughter Margaret has just been awarded a four year scholarship at the University of Illinois.

The Misses JoAnn Martie and Doris Yunker returned last Wednesday from a 10 day vacation tour in Florida. They flew both ways and enjoyed bathing in the beaches in Miami and other places.

Mr. and Mrs. Claude Hampton of Frankfort, Ind., Mr. and Mrs. Frank Burks, Peoria and Mrs. Paul Obst of Lockport spent last Friday with Mr. and Mrs. W. H. Pittman.

A daughter was born to Mr. and Mrs. Charles Burkhardt, Jr., in Silver Cross hospital Wednesday, August 25. She has been named Carol Ann and weighed eight pounds. She and her mother were welcomed home Saturday by her brothers, Jimmy 5, and Dennis 17 months.

Miss Joyce Cummons and girl friend of Chicago returned last week from a two weeks vacation tour of the west. They visited the Grand Canyon and many other interesting places.

Miss Lydia Baudry and girl friend of Chicago are enjoying a two weeks vacation in Colorado.

Henry Boleman and daughter Marilyn returned Monday from a two weeks vacation spent at Miami, Fla., and other places of interest. They made the trip both ways by plane.

Mr. and Mrs. Arthur Buke entertained at dinner in their home Sunday, Mr. and Mrs. Bert Spiess and Mr. and Mrs. Everett Creer and son, Allen.

Mrs. Hugo Deadmore will enter Silver Cross hospital this afternoon for treatment for a stretched ligament in her leg.

Complete 1st Phase Of '54 Assessments
County Assessor John S. Clarke today announced the completion of the first phase of the 1954 real estate assessment with the delivery to the Board of Appeals of 15 of the 30 country township assessment books. Bremen township, included in this group, reached a total real estate valuation of \$25,684,568 for the year 1954. This represents an increase

of \$1,647,313 over last year's total of \$24,037,255.
The 1954 assessment is scheduled for completion more than three months ahead of the usual time due to legislation effective this year which has shortened the work period of all offices concerned with assessment and tax appeals.
Months ago the stage was set for accomplishment of this task through a series of conferences under the chairmanship of H. Gordon Bollman, Chief Deputy assessor. Bollman sought and received close cooperation of the Board of Appeals, County Clerk, County Board of Commissioners, State's Attorney and Recorder in planning and scheduling their operations so that all procedures required by law could be accomplished with the minimum loss of time and effort.

The completed townships are, Barrington, Hanover, Palatine, Evanston, Bremen, Schaumburg, Lemont, Orland, Wheeling, Niles, Elk Grove, Cicero, Northfield, New Trier and Maine.

Comparative Real Estate Assessments
Bremen, 1953 Final, \$24,037,255; 1954 Final, \$25,684,568; Increase, \$1,647,313.
Lemont, 1953 Final, \$4,336,049; 1954 Final, \$4,474,959; Increase, \$138,910.
Orland, 1953 Final, \$4,529,672; 1954 Final, \$4,679,883; Increase, \$150,211.

and daughter of Sayre ave., returned from a vacation in Central Kansas, visiting the latter's mother and a tour through the Black Hills, So. Dak.
Mrs. William McBurney, Sr., underwent surgery in Ingalls Memorial hospital in Harvey last Friday. She is recovering gradually, and would enjoy hearing from friends.
Mrs. Russell Draves, daughter Beverly and son Russell motored to Allentown and Appleton, Wis., the past week. They returned Thursday bringing their daughter Mary with them.

Mrs. Amanda Brandau suffered a slight stroke Thursday evening but is improving slowly. Dinner guests Sunday of the Dallas Websters were, Mr. and Mrs. William Dvorak and family of Harvey. In the afternoon the families visited Brookfield zoo and the children particularly enjoyed the children's zoo.

Mrs. Mamie Mabile of Tucson, Ariz., was a week end guest at the Harry Cloud home on Highland Av. Mrs. Mabile is a step-sister of Mr. Cloud.

Keith Hultsch, son of Mr. and Mrs. Herbert Hultsch celebrated his ninth birthday Aug. 28 with a party for his classmates and neighborhood playmates. Sunday guests at the Hultsch home were Mr. and Mrs. Ed. Natha and Mrs. Agnes Natha of Chicago.

Mr. and Mrs. Fred Willman Sr., attended the wedding of their grand nephew, Kent Lang and Miss Ruth Weitzke, held in the Grace Lutheran church, 61st and Marshfield, Chicago, Aug. 14.

Mr. and Mrs. J. Jankauskas entertained Saturday, Mr. and Mrs. A. Benke of Round Lake, Mr. and Mrs. J. Baulis, Chicago, and Mr. and Mrs. Joseph Skubisz and family and Mr. and Mrs. Roy Murphy and family of Tinley Park.

Miss Patricia Bacon, daughter of Mr. and Mrs. L. V. Bacon, Highland Av., was pleasantly surprised with a birthday shower Aug. 12 with Miss Sandra Hilbert of 116th Place, Chicago, as hostess. Thirty relatives and friends assembled to wish Pat happiness and to present her with many lovely gifts. The buffet table was appointed with blue crystal candelware and was centered with a miniature bridal cake. Miss Bacon will become the bride of Pfc. Richard Bridge of the U.S. army on Sept. 11 at 8 P. M. in the Zion Lutheran church at Tinley Park.

The Miriam circle of the WSCS will meet next Tuesday, Sept. 7 at 8 p.m. in the social hall of the Methodist Church. Jack Tomlinson left Monday afternoon for Camp Chaffee, Ariz.

Kathy and Barbara Clement, daughters of Mr. and Mrs. H. Clement were joint-hostesses to 10 friends and school-mates who were invited to help celebrate their eighth and ninth respective birthdays. The girls played games and were delighted when Mr. Clement announced he would give a magic show. Two beautiful birthday cakes, centered the refreshment table, as the usual birthday fare was enjoyed by the guests.

Tips on Traffic Safety
By
CHARLES F. CARPENTIER
Secretary of State

On your vacation trip this year, you may find yourself entering one of the new expressways or other type of high speed highways which are stretching over more and more miles each year.

A special bit of caution is needed when joining the flow of traffic on those roads, especially if they are heavily traveled ones.

Remember, speed is much faster on expressways than it is on other

types of highways. You will need more time, more distance, once you have entered the flow of traffic to gather the speed needed to keep up with other cars.

This means that you must wait for a larger gap in traffic than you would need if you were entering a highway where speeds are slower. Trying to slip into a small space in fast-moving traffic could easily involve you and several other cars in a terrific tangle of metal. It will take a little extra patience, but it could give you a lot of extra life.

A copy of the completely new "Rules of the Road" booklet will be sent to you free upon request. Write to CHARLES F. CARPENTIER, Secretary of State, Springfield, Illinois.

FAIRBANKS-MORSE

DEEP WELL SUBMERSIBLE PUMP

ECONOMY

Only ONE pipe of SMALLER diameter used inside well casing — does work of two.

Uses smaller motor — saves power.

No jets, rods, shafts to add to cost.

Pushes water up pipe — lowers power demand.

Quality construction — made of corrosion-resistant bronze and stainless steel. Impeller and motor shafts of lifetime stainless steel.

Easily, inexpensively removed if repairs are ever needed. If water level falls, no need to pull pump. Just add more lengths of pipe.

PERFORMANCE

Delivers up to 720 g.p.h. at a 300-foot setting — more at shallower settings. Operated entirely submerged — both pump and motor.

Pump never needs priming.

No motor or pump noises, or vibration. Water cooled — water lubricated.

Pressure tank may be set over or away from well.

Service lines may be cut in below frost line.

Homemaking Dept. Offers Exploratory Course of Study

The Homemaking Department at Lincoln-Way is outstanding in every detail. The large room is divided to form a clothing construction area, a meal preparation area, and a family living area. The clothing construction area is equipped with three different brands of sewing machines, including a zig-zag model. There are a large number of storage shelves and drawers to keep each student's work in orderly fashion.

The five unit kitchens are equipped to give students experience in using various types of cooking utensils such as flameless, stainless steel, and aluminum.

Both gas and electric ranges have been installed. Students will have an opportunity to use such equipment as an upright home freezer, electric dishwasher, automatic washer and dryer. Three large foliage planters in the family living center will be arranged by homemaking students.

Courses to be offered are: Practical Arts (9 weeks), Homemaking I, II, and III.

Practical Arts is an exploratory course for freshmen who have no specific vocational plans. They will receive experience in four areas: General Shop, Arts and Crafts, Typing and Homemaking. Nine weeks are spent in each one of these four areas, which will help students in selecting their future courses. During the nine weeks spent in homemaking, students will learn

about food selection, meal preparation, selection of clothes, and personal development.

Homemaking I, a freshman course, will include preparing breakfasts, luncheons, and suppers, child care (baby sitting), the girl's room, personal development, and clothing construction.

Homemaking II, a sophomore course, will include preparing dinners, child development, clothing construction, and home furnishings.

Homemaking III, essentially a junior and senior subject, will include units on experimental foods, dietary problems, home management, equipment, tailoring and preparation for marriage.

Classwork in homemaking is planned to meet the needs of the individual student. For instance, a student is encouraged to select a project in clothing which will challenge her ability.

Future plans include family living, a course designed for boys and girls of junior and senior standing. This course might include such units as preparing for marriage, housing, clothing selection and care, meal preparation, reupholstering, and supervision of play groups.

These units are suggestive, since course content is determined through student-teacher planning to best meet the needs of those students enrolled.

A special feature of this department is the annual play group. Boys and girls from our community of ages four to six are enrolled in 1/2 day sessions in the homemaking department. A typical daily schedule for these tots might include: free play, coloring, lunch, story-telling, rest, and record playing. High school students study various activities of these children during a unit in child development.

A Lincoln-Way Homemakers' of America Chapter will be organized in the near future. Any student enrolled in homemaking is eligible for membership in this organization.

Science Department Has Dark Room and Experimental Lab

Science class rooms in your new Lincoln-Way high school are a far cry from the "horse and buggy days" of the past. In keeping with the general rapid advancement in all scientific areas, the new department has provided for the scholars needs, in every way possible.

All laboratory tables and cabinets in the biology-general sci-

ence room, plant room and physics-chemistry are custom made, with the wood finish matching the woodwork and trim in the rest of the building.

The biology-general science room has 16 two-student tables all facing the instructor's demonstration table in the front of the class. The instructor has an enclosed office space at the front of the room and a large store room adjoining the office for equipment and supplies.

A dark room is located between the two main science rooms, and it opens into the main corridor. A photography club will be organized, to provide for some of the interest of the students. Adjoining the dark room, to the south, is a plant room and aquarium. Here the biology students will have an opportunity to care for their specimens and various class projects.

In the chemistry-physics combination room, there are six large four-student tables and two small two-student tables. This will provide space for twenty-six students which is considered the maximum number in a laboratory course of this kind. A special experimental laboratory is provided and safely enclosed, where individual students may carry on separate experiments and research projects.

Three Qualified Instructors For Driver Training

Joliet Motors, Inc. has agreed to donate a 1954 Ford for use in the driver education program at Lincoln-Way Community high school. Automobile dealers who support such a program stand to lose from \$200 to \$300 at the present depreciation rate on new cars. So, we appreciate this courtesy of Joliet Motors, Inc., which made possible the driver education program at Lincoln-Way.

The Chicago Motor Club will provide dual controls for the car and pay for installing them. It will also pay for appropriately lettering the automobile and a membership in the Club. Much of the classroom material used is distributed by the club either free or on a cost basis. The Board of Education will furnish the insurance, gasoline, and oil for the automobile.

Many of our large insurance companies allow a discount of 15 per cent on increased teenage insurance rates when they have successfully completed a driver education course under the direction of a qualified instructor. Studies indicate that adults who have had a high school driver education course have approximately one-half as many accidents as those who have learned to drive under the direction of an unskilled teacher.

The driver education course at Lincoln-Way will meet the requirements and suggestions of the State Department of Education, The Chicago Motor Club, The National Safety Council, and cooperating insurance companies. Every student will receive thirty-two hours of classroom work dealing with laws, insurance and liability, maintenance and operation of the car, safety, psychological aspects of driving, effects of emotion, drugs and alcohol, current safety problems, and what the teen-age driver can do to make the roads safer for himself and others. Each individual will also receive eight hours of actual driving time behind the wheel of a dual control car, under the guidance of a qualified instructor. Students will receive thirty-two fifteen minute lessons dealing with starting the engine, clutching and shifting gears, braking, changing tires, turning corners, signals, parking, passing, country driving, city driving, anticipation of emergencies, and the state driver's license exam. Everyone will be given an opportunity to do night driving two or three evenings during the semester.

The course is scheduled as a part of the Lincoln-Way physical education program, and at least one-half of the time spent in driver education classes will be taken from the P.E. period. The driver education staff includes three qualified instructors. H. Neil Hardy, who received his

training from the University of Illinois in 1950, will act as director and coordinator, lecturer to two sections, and conduct adult classes. Howard Jackson received his instruction at Northern Illinois this summer and will have eight driving sections. Glenn Young completed his training at the University of Illinois last week, and will teach four driving sections.

Mr. Hardy hopes to offer an adult driver training course this fall. No decision has been made concerning fees at this time, but in all probability it will be \$20.00. The course will include five lecture and discussion meetings dealing with laws, insurance and liability, maintenance and operation of the car, driving in traffic, and current problems and safety. Six to eight forty-five minute driving lessons will be given each adult in the dual control car. In addition, adults will be given an opportunity to take part in evening driving to obtain additional experience in traffic.

Enrollment in the fall classes will be limited to sixteen people. The first sixteen people contacting Mr. Hardy will compose this fall class.

The driver education course at Lincoln-Way hopes to make teenagers conscious of their responsibility on the highway, to teach them correct skills and techniques, and to develop in them a desire to drive safely and carefully. We believe that by developing the above ideas that our highways will become safer. Deaths due to the automobile will decrease, and many accident victims will be spared struggling thru life without an arm or leg.

FRANKFORT

Mrs. Katharine Heisner
Frankfort 4902

CARD OF THANKS

We want to thank all our relatives, friends and neighbors for their thoughtfulness in sending cards, gifts and flowers to our wife and mother, Mrs. Katherine Warning, while she was in the hospital; also for the many kindnesses and sympathy extended to us at the time of her death; for the comforting services of Rev. Ralph Steele, Mrs. L. Pearson, Mrs. Ralph Steele and for the beautiful floral and memorial offerings.

Fred Warning and family

IN MEMORIAM

HEISNER-- Otto B. In loving memory of our dearest husband, father and grandfather who passed away 8 years ago September 7.

Not dead to us who loved him
But only gone before,
He lives with us in memory
And will forever more.

LOVING WIFE, CHILDREN
and GRANDCHILDREN

Mr. and Mrs. Lloyd Meachum of Hartford, Mich., spent several days recently with Mr. and Mrs. Harry Palmer. Mrs. Palmer and son Donald returned with them to their home where they visited with her parents, Mr. and Mrs. Frank Schimmels for a few days.

The Frankfort PTA will hold their first meeting of this school term Wednesday evening, Sept. 8, at 7:30 o'clock. The program will be panel discussion on modern methods of teaching by the teachers. Room awards will be given for the most parents present and also a special prize for the most fathers present. Everyone interested children are invited to attend at which time they may also meet the teachers and board members.

Mrs. W. V. Hedges and Roger were dinner guests of her parents, Mr. and Mrs. Walter Boyer at Reddick, Sunday.

Mr. and Mrs. Donald McCoy of Elmwood were dinner guests Sunday of her sister and family, Mr. and Mrs. Ralph Wright.

Mr. and Mrs. Ralph Thoresen entertained eight families at a neighborhood steak fry at their home last Tuesday evening.

Miss Minnette Barton of St. Louis spent last week with her niece and family, Mr. and Mrs. Lynn Kahlhagen.

Mr. and Mrs. Wilbert Klier had as their guests Sunday afternoon Mr. and Mrs. Lorenz Bode of Tinley Park and Mr. and Mrs. Henry Kuse.

Mrs. O. Winpew and family of Harvey visited with her parents, Mr. and Mrs. John Bixler, Saturday.

Mr. and Mrs. Arthur Baumann accompanied their son and family, Mr. and Mrs. Carl Baumann to Chicago, Sunday where they visited with Mr. and Mrs. Ray Reuger.

Mr. and Mrs. Riley Fleisher and daughter of Chicago Heights and Walter Bettenhausen were guests of the Reuben Borms Saturday evening in observance of his birthday anniversary.

Susan Marie, was the name given the infant daughter of Mr. and Mrs. Norman Lorenzen, when baptized Sunday morning by the Rev. Erich Bizer during the morning service in the St. Peters Evangelical church. Sponsors were Mrs. Harold Elbert, and Donald Piper. Dinner guests in the parents home were Rev. and Mrs. Erich Bizer, the Harold Elberts and Mrs. Ernest Piper, Shirley and Donald of Peotone.

Mr. and Mrs. John Farrell and daughter Annette and son Manny of Panhandle, Tex., spent last Thursday with their uncle and aunt Mr. and Mrs. Art Geuther.

They also called on Mr. and Mrs. Harry Marti.

Mr. and Mrs. Louis Koerner of Joliet were guests Sunday of Mrs. William Koerner.

Mr. and Mrs. Ronald Sunesac and family of Manteno and Henry Weichbrodt of Kankakee were guests of Mr. and Mrs. Herman Weichbrodt Sunday.

Mr. and Mrs. Roy Koerner and Mr. and Mrs. William Carter of Joliet, dined out last Friday for dinner, in observance of the former's eighteenth wedding anniversary.

Mrs. Dorothy Lehnert returned Tuesday from Silver Cross hospital to the home of her mother, Mrs. Albert Borms.

Mr. and Mrs. Wendell Morrison and children spent a few days last week in northern Mich.

Mr. and Mrs. Charles Mark and son Charles Jr. spent a few days last week at the Dells, in Wis.

Mrs. Bertha Klepper, Mrs. Katie Pink and Mrs. Henry Pink of New Lenox, were recent dinner guests at a farewell party given for Mrs. William Sternburg of Roseland who is moving to St. Petersburg, Fla., shortly. The party was given in the home of Mrs. Walter DeVries, at Beverly Hills.

Mr. and Mrs. Paul Lambrecht and Mr. and Mrs. Richard Gardner of Dolton were hostesses at a dinner party in the formers' home Saturday evening, to honor the approaching marriage of their sister, Miss Pat Gerodernos of Homewood to Mr. Donald Pyle of Midlothian. Other guests were Mr. and Mrs. Donald Fresh and Mr. and Mrs. Robert Anderson, Joliet; Mr. and Mrs. David Gardner and Burton Gardner, Dolton; Miss Judy Lloyd, Palos Park, Richard Yers and Jim Gerodimos, Homewood; Miss Grace Baily, Harvey and Miss Joan Babb, Chicago.

Mr. and Mrs. Herman Barlewort and their guests, Mr. and Mrs. Arnold Oberman and Gustav Barlewort, who are visiting here from Germany made a motor trip to Starved Rock and Deer Park recently. Also making the trip to Starved Rock was Henry Barlewort of Chicago and Mr. and Mrs. Julius Sewing of Elwood and Mrs. William Finhold of Joliet.

The overseas visitors left on Saturday accompanied by the Sewings for the trip to New York where they will board a boat for their return home after three months here in America.

Wins Old Car Race

A 1902 Rambler runabout, owned by Richard A. Cox of Streator, reigns today as the grand champion of the 1954 Antique Auto and Sports Car exhibit and meet of the Illinois State Fair.

The car was judged the most perfectly restored vehicle of the 172 entered in the meet. Just before the 100 mile auto race Saturday, 151 of the cars paraded before the grandstand led by Secretary of State Charles F. Carpenter, superintendent of the meet, riding in last year's champion, a 1908 Lambert owned by Ray Zund of Dixon.

The car winning the trophy for coming the longest distance under its own power was a 1924 Ford owned by Rexel Skidmore of Knob Noster, Missouri which traveled 280 miles to enter the competition.

Secretary Carpenter presented trophies and ribbons to the winners of the various classes at a banquet Saturday night.

Homemaking Dept. Offers Exploratory Course of Study

The Homemaking Department at Lincoln-Way is outstanding in every detail. The large room is divided to form a clothing construction area, a meal preparation area, and a family living area. The clothing construction area is equipped with three different brands of sewing machines, including a zig-zag model. There are a large number of storage shelves and drawers to keep each student work in orderly fashion.

The five unit kitchens are equipped to give students experience in using various types of cooking utensils such as flameless, stainless steel, and aluminum.

Both gas and electric ranges have been installed. Students will have an opportunity to use such equipment as an upright home freezer, electric dishwasher, automatic washer and dryer. Three large foliage planters in the family living center will be arranged by homemaking students.

Courses to be offered are: Practical Arts (9 weeks), Homemaking I, II, and III.

Practical Arts is an exploratory course for freshmen who have no specific vocational plans. They will receive experience in four areas: General Shop, Arts and Crafts, Typing and Homemaking. Nine weeks are spent in each one of these four areas, which will help students in selecting their future courses. During the nine weeks spent in homemaking, students will learn

about food selection, meal preparation, selection of clothes, and personal development.

Homemaking I, a freshman course, will include preparing breakfasts, luncheons, and suppers, child care (baby sitting), the girl's room, personal development, and clothing construction.

Homemaking II, a sophomore course, will include preparing dinners, child development, clothing construction, and home furnishings.

Homemaking III, essentially a junior and senior subject, will include units on experimental foods, dietary problems, home management, equipment, tailoring, and preparation for marriage.

Classwork in homemaking is planned to meet the needs of the individual student. For instance, a student is encouraged to select a project in clothing which will challenge her ability.

Future plans include family living, a course designed for boys and girls of junior and senior standing. This course might include such units as preparing for marriage, housing, clothing selection and care, meal preparation, reupholstering, and supervision of play groups.

These units are suggestive, since course content is determined through student-teacher planning to best meet the needs of those students enrolled.

A special feature of this department is the annual play group. Boys and girls from our community of ages four to six are enrolled in 1/2 day sessions in the homemaking department. A typical daily schedule for these tots might include: free play, coloring, lunch, story-telling, rest, and record playing. High school students study various activities of these children during a unit in child development.

A Lincoln-Way Homemakers' of America Chapter will be organized in the near future. Any student enrolled in homemaking is eligible for membership in this organization.

Science Department Has Dark Room And Experimental Lab

Science class rooms in your new Lincoln-Way high school are a far cry from the "horse and buggy days" of the past. In keeping with the general rapid advancement in all scientific areas, the new department has provided for the scholars needs, in every way possible.

All laboratory tables and cabinets in the biology-general science

room, plant room and physics-chemistry are custom made, with the wood finish matching the woodwork and trim in the rest of the building.

The biology-general science room has 16 two-student tables all facing the instructor's demonstration table in the front of the class. The instructor has an enclosed office space at the front of the room and a large store room adjoining the office for equipment and supplies.

A dark room is located between the two main science rooms, and it opens into the main corridor. A photography club will be organized, to provide for some of the interest of the students. Adjoining the dark room, to the south, is a plant room and aquarium. Here the biology students will have an opportunity to care for their specimens and various class projects.

In the chemistry-physics combination room, there are six large four-student tables and two small two-student tables. This will provide space for twenty-six students which is considered the maximum number in a laboratory course of this kind. A special experimental laboratory is provided and safely enclosed, where individual students may carry on separate experiments and research projects.

Three Qualified Instructors For Driver Training

Joliet Motors, Inc. has agreed to donate a 1954 Ford for use in the driver education program at Lincoln-Way Community high school. Automobile dealers who support such a program stand to lose from \$200 to \$300 at the present depreciation rate on new cars. So, we appreciate this courtesy of Joliet Motors, Inc., which made possible the driver education program at Lincoln-Way.

The Chicago Motor Club will provide dual controls for the car and pay for installing them. It will also pay for appropriately lettering the automobile and a membership in the Club. Much of the classroom material used is distributed by the club either free or on a cost basis. The Board of Education will furnish the insurance, gasoline, and oil for the automobile.

Many of our large insurance companies allow a discount of 15 per cent on increased teenage insurance rates when they have successfully completed a driver education course under the direction of a qualified instructor. Studies indicate that adults who have had a high school driver education course have approximately one-half as many accidents as those who have learned to drive under the direction of an unskilled teacher.

The driver education course at Lincoln-Way will meet the requirements and suggestions of the State Department of Education, The Chicago Motor Club, The National Safety Council, and cooperating insurance companies. Every student will receive thirty-two hours of classroom work dealing with laws, insurance and liability, maintenance and operation of the car, safety, psychological aspects of driving, effects of emotion, drugs and alcohol, current safety problems, and what the teen-age driver can do to make the roads safer for himself and others. Each individual will also receive eight hours of actual driving time behind the wheel of a dual control car, under the guidance of a qualified instructor. Students will receive thirty-two fifteen minute lessons dealing with starting the engine, clutching and shifting gears, braking, changing tires, turning corners, signals, parking, passing, country driving, city driving, anticipation of emergencies, and the state drivers license exam. Everyone will be given an opportunity to do night driving two or three evenings during the semester.

The course is scheduled as a part of the Lincoln-Way physical education program, and at least one-half of the time spent in driver education classes will be taken from the P.E. period. The driver education staff includes three qualified instructors. H. Neil Hardy, who received his

training from the University of Illinois in 1950, will act as director and coordinator, lecturer to two sections, and conduct adult classes. Howard Jackson received his instruction at Northern this summer, and will have eight driving sections. Glenn Young completed his training at the University of Illinois last week, and will teach four driving sections.

Mr. Hardy hopes to offer an adult driver training course this fall. No decision has been made concerning fees at this time, but in an probability it will be \$20.00. The course will include five lecture and discussion meetings dealing with laws, insurance and liability, maintenance and operation of the car, driving in traffic, and current problems and safety. Six to eight forty-five minute driving lessons will be given each adult in the dual control car. In addition, adults will be given an opportunity to take part in evening driving to obtain additional experience in traffic.

Enrollment in the fall classes will be limited to sixteen people. The first sixteen people contacting Mr. Hardy will compose this fall class.

The driver education course at Lincoln-Way hopes to make teenagers conscious of their responsibility on the highway, to teach them correct skills and techniques, and to develop in them a desire to drive safely and carefully. We believe that by developing the above ideas that our highways will become safer. Deaths due to the automobile will decrease, and many accident victims will be spared struggling thru life without an arm or leg.

Mrs. Elsie Cramer of Tuscon, Ariz., is spending two weeks with Mr. and Mrs. Charles Elliott. The Elliotts, Mrs. Kramer and Mrs. Charles Elliott, Jr. of New Lenox, will spend the Labor Day week-end at their summer home at Lac du Flambeau, Wis.

Mr. and Mrs. Edward Sproat and daughter Bonnie and Betty Stellwagen attended the Peotone fair Saturday.

Mr. and Mrs. Robert Sproat, Mrs. Adella Sproat, Miss Doris Handorf, Miss Ethel Handorf and Mr. and Mrs. Howard Handorf and children Kathy, Karen and Jimmy attended the wedding of Miss Patricia Miller and Cpl. James Thomas at St. Benard's church in Ridgewood Sunday and the reception at the American Legion hall in Joliet. Mr. and Mrs. Handorf were the attendants at the wedding. The bride is a sister of Mrs. Handorf.

Guests Sunday afternoon in the home of Mrs. C. F. Haley

were Mr. and Mrs. Frank Milne, Mr. Henry Burch and Mrs. Elizabeth Anderson of Lockport. Mr. and Mrs. Louis Greenwalt and family spent a few days last week vacationing in Wisconsin.

Wins Old Car Race

A 1902 Rambler runabout, owned by Richard A. Cox of Streator, reigns today as the grand champion of the 1954 Antique Auto and Sports Car exhibit and meet of the Illinois State Fair.

The car was judged the most perfectly restored vehicle of the 172 entered in the meet. Just before the 100 mile auto race Saturday, 151 of the cars paraded before the grandstand led by Secretary of State Charles F. Carpenter, superintendent of the meet, riding in last year's champion, a 1908 Lambert owned by Ray Zuend of Dixon.

The car winning the trophy for coming the longest distance under its own power was a 1924 Ford owned by Rexel Skidmore of Knob Noster, Missouri which traveled 280 miles to enter the competition.

Secretary Carpenter presented trophies and ribbons to the winners of the various classes at a banquet Saturday night.

School of Tomorrow Becomes a Reality

by A. Hunter Chapman
Supt. Lincoln-Way School

After several years of planning and discussion the "School of Tomorrow" has become the "School of Today." The dream of so many people in district 210 has at last become a reality. We salute the citizens, taxpayers, and parents for their far-sightedness in providing for the educational needs of the youth in this area.

Previous to the formation of district 210, several group meetings were held within the area where the citizens were given the facts and information necessary for making their decision. Dr. William C. Reavis of

Principal A. Hunter Chapman at his desk in his office in the new high school building. Robert Porter Photo

The University of Chicago was most helpful in presenting this information to the citizens. Later, after the district was actually formed, by an overwhelming vote, the new board of education employed the University of Illinois Bureau of Field Services to make a complete study of the building and curriculum needs in this community. This study was supervised by the University of Illinois, and much of the work done by local lay citizens in the various communities. The final report was outstanding in every respect, and has been used as a valuable guide by the teachers and board of education in the construction of the building along with the development of the curriculum.

In June, 1952, the election for the issuance of \$1,200,000 along with the purchase of the site, were authorized by a total vote of 1,074 in favor of the new building and 199 opposing its erection.

The architectural firm of Childs and Smith was employed in the beginning by the board of education. A careful preliminary study was made of the needs, not only for the present, but future needs as well.

The original bond issue of \$1,200,000 was almost of sufficient size to provide for the building as planned by the architects and board of education. The only part of the building left unfinished is the auditorium which will be completed within the next two or three years.

The building has been so constructed that space has been left for the addition of several classrooms extending to the north of the present Arts and Crafts department located just north of the general shop area. All of the present heating and plumbing facilities can be easily utilized; likewise, the music department and the cafeteria area can be expanded as the need arises. A swimming pool may also be built onto the west side of the gymnasium if the citizens are willing and approve the same sometime in the future. All the necessary plumbing and water connections were made with this thought in mind.

In planning the new building, the board of education insisted that the building should be functional in every sense of the word, with all unnecessary space and non-essential luxuries being eliminated, but at the same time providing for beauty and a pleasing general appearance. The completed design does show a most pleasing architectural simplicity; at the same time,

Continued on Page 2

School Provides Opportunity To Develop Abilities

In planning the curriculum we might ask ourselves the question - what do we expect from our school of today? In general terms the answer to this question would be something like this: First, we want our youngsters to understand the make-up of our way of life and to make necessary improvements upon it. Secondly, through our educational system today we want to be as certain as we can that each student is given an opportunity to develop to the fullest possible extent of his potentialities.

In thinking through the school curriculum this two-fold obligation to society and to the individual must always be in the foreground of our thinking.

In spelling out these obligations still further we will examine three basic assumptions upon which the program can be constructed. These represent the foundation upon which our courses are selected and content determined.

1. The school must concern itself with the jobs that need to be carried on by society if we are to survive. What are these social realities of today? To mention only a few of these social tasks would include such things as production of goods and services; protecting physical and mental health; communicating with others; conservation of natural and human resources.

2. The school is concerned with the things that our community and society as a whole expect its young people to learn and practice while they are maturing. This is the area of real needs for the youth of today. What are some of these needs? Building self-respect and self confidence; learning to assume responsibility; understanding bodily development; are a few examples of these needs.

3. The school is concerned with the development of democratic values. In the midst of the world struggle today it is particularly important that the young people know more about their democratic heritage and how it relates to present day social problems. There are many implications here for the school program and for the implementation of these ideals in teaching methods.

These are the basic assumptions upon which the school in a democratic society will rest. These are things which are familiar to us but nevertheless need to be examined again and again.

ADULT EDUCATION

Ralph Wright, assistant principal, will be in charge of the adult education program. Information and publicity will be released about October 1 giving the various courses and enrollment data. These classes will probably start about the first of November. The board of education has encouraged and advocated a well organized adult program - one that would help in providing for the adult needs. Any course will be offered, providing there is sufficient demand and someone adequately trained for the instructor.

Considerable interest has already been shown in some of the following areas: agriculture, shop courses, typing, arts and crafts, speech, and home economics.

OFFICE PERSONNEL

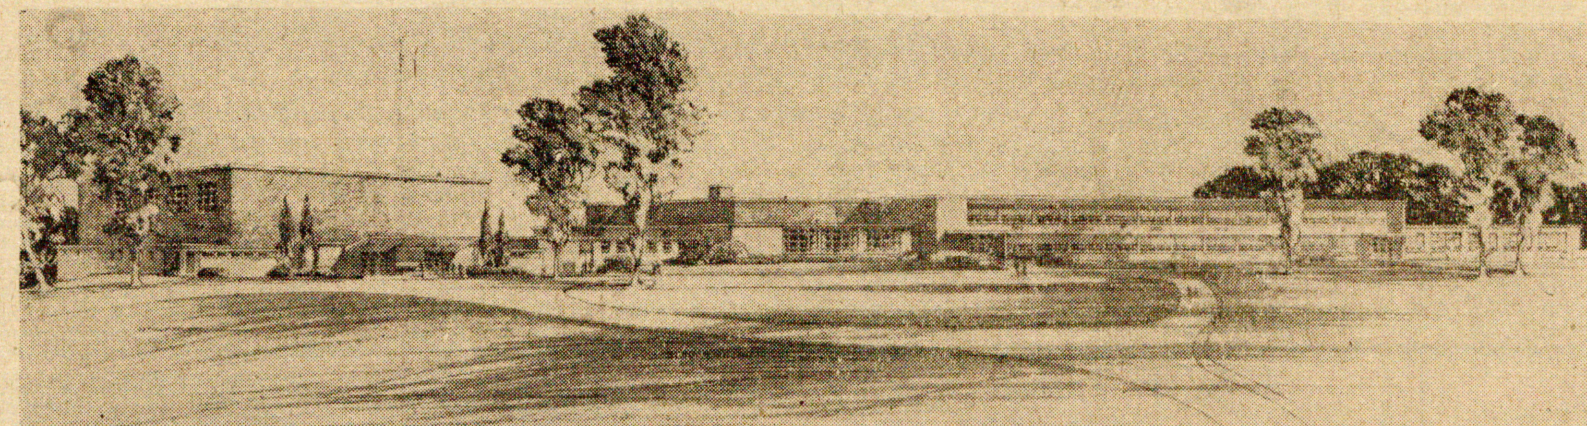

Two competent and highly trained women will work in the office, keeping the many records along with the normal correspondence and official board of education business.

Mrs. Eugenia Davis is a former business education instructor, and received her degree from Western Illinois State college. She will teach two classes in first year typing.

Miss Mary Don Butzbach graduated this year from the University of Illinois with honors, and received her degree in Secretarial Training.

"An investment in knowledge always pays the best interest," Benjamin Franklin.

"I shall prepare myself - someday my chance will come! Abraham Lincoln"

State Approves Vo-Ag Department For Lincoln-Way

The new department has already been approved by the state department of Vocational Education, and state reimbursement will be received by the board of education in supporting this program.

In discussing the various new courses with the Lincoln-Way vocational agriculture teacher, Mr. Robert Van Rheeden, he mentioned some of the different units of work which he intends of offer during the four-year course.

Vo-Ag I Orientation: the vocational Agriculture Program; the Future Farmers of America; the Supervised Farming Program, including home projects.

Elementary Animal Husbandry: Including a study of the breeds, selecting and judging, housing, feeding and management, disease and sanitation, fitting and showing of beef cattle, dairy cattle, hogs, sheep and poultry.

Farm Shop Work: The use and care of hand tools; elementary farm carpentry; rope work and painting and glazing.

Vo-Ag II Orientation: Briefly, the vocational Agriculture Program; the Future Farmers of America; the Supervised Farming Program.

Soils, Fertilizers and Crops: Including the following: soil testing; selecting and applying fertilizers according to needs; corn production; soybean production; growing wheat and oats; producing alfalfa, clovers, pasture and hay; control of weeds, insects and diseases; garden and potatoes; soil and moisture conservation.

Farm Shop Work: Elementary welding and oxy-acetylene welding; woodwork and farm carpentry; blue print reading; and selecting, using, and maintaining farm machinery.

Vo-Ag III Farm Management: Farm accounting with the Illinois Farm Account Book; capital needed to become established in farming; sources of farm credit; legal problems of the farmer; and marketing farm products.

Farm Shop Work: Elementary electrical wiring; more advanced farm carpentry; more advanced care and oxy-acetylene welding; care, operation, maintenance and adjustment of tractors; using and maintaining farm machinery and concrete work.

Special Problems: More intensive research on special problems in animal husbandry, soils and crops, etc. on an individual student basis.

Vo-Ag IV Farm Management: Planning the farm business, including, types of farming; procedures for becoming established in farming; rural sociology; planning the building needs and the farmstead location and arrangement; planning the field layout and the cropping system; determining land capabilities and fertilizer needs; planning the livestock system; determining need for soil conservation practices and determining the labor needs.

Farm Shop Work: Advanced electrical wiring for the farm and home; electrical motors; advanced woodwork and farm carpentry; advanced arc and oxy-acetylene welding; tractor work; farm machinery repair; maintenance and adjustment, farm home conveniences plumbing.

Special Problems: More intensive research on special problems, particularly applicable to seniors who are planning to farm following graduation.

Guidance Service To Assist Students

Included in the University of Illinois Field Services Report was the recommendation that a strong guidance program be included in the plans for the Lincoln-Way High School. A "guidance program" includes those services which help each individual to select, plan, enter upon, and progress in activities in line with his own interests, abilities, and the needs of our school and society.

Many of these problems, of course, are dealt with in the regular classes and through personal contacts with the teachers. However, provision has been made for additional help through group activities as well as individual counseling.

All students will meet each Monday with an advisor in Guidance Groups to discuss school and personal problems that have been suggested by students or teachers. Individual help will be available from one of the two counselors, Mrs. Gorman and Mr. Wright, who have private offices conveniently located on the main floor. They have both had experience and special training in helping students solve personal problems and will do their best to aid those who call on them for counsel and assistance.

Some of the problems with which students frequently request help include such things as: planning their high school courses, selecting a college, making application for scholarships, finding part-time job while in school or a permanent full-time job after graduation, interpreting test results, improving study habits, making better personal and social adjustment and various other personal problems.

Certain informational services will help provide information and materials concerning educational and occupational opportunities, personal adjustment, and social development. Testing services will include the administration and interpretation of ability, and aptitude. Provision tests of achievement, interest, will be made for individual as well as group testing.

Parents are invited to discuss the progress of their children with the counselors if they desire. Arrangements to do this may be made by calling the school office.

These are some of the phases of the guidance program being planned. As the students, parents, and faculty feel the need for other services, they will be provided for to the extent possible with the personnel and facilities.

MAINTENANCE STAFF

Much credit for the excellent appearance of the new building is due to the untiring efforts of the custodial staff. Frank Goetschel is the building superintendent in charge of all building maintenance. He has been on the job since last March, working with the various contractors and getting acquainted with all the mechanical equipment. There are approximately 350 electric motors in the building that require regular service. There are also over 40,000 square feet of floor space to be thoroughly cleaned daily.

Other members of the staff include: Floyd Mundt of Manhattan, Harold Helenhouse, R.F.D. No. 2, Joliet, and Roland Cagwin, bus maintenance work and driver. Cagwin will also assist Goetschel during the school day while the other two staff members will be on night duty.

Suggest Formation Of Committee To Advise School Board

The "School for Tomorrow" report by the field services team of the University of Illinois, suggests the formation of an advisory committee to the board of education. The report maintains that this is an excellent opportunity for active lay participation in assisting the board of education in dealing with school problems. Such a group of citizens working together can be most effective in helping to make the district a unified educational system.

This committee can serve a variety of purposes but it is especially important in supplying information about community needs and attitudes to the board and in helping to interpret school policies to the people.

This group should be as nearly as possible representative of the community. It should take into consideration such things as geographic areas, parents and non-parents, age groups, vocational pursuits, property owners and renters.

In many cities, towns, and rural areas today lay advisory groups are working on community as well as school needs. Many of these groups are organized around the following areas: 1. Community Needs, 2. School Curriculum, 3. School Housing, 4. School Finances. Special sub-committees are set up as the need arises. This advisory group is an excellent avenue of communication between the school and community and is a step forward in developing democratic educational policy.

Transportation

Four new 52-passenger buses and two large 55 and 61-passenger buses have been purchased by the Lincoln-Way board of education for the transporting of the pupils. This service will be provided for the students with out any cost to the parents. For many years transportation was a major problem for high school students. It was rather expensive and also inadequate for the rural people.

BUS DRIVERS

Joseph Kruzich of Mokena, shop teacher, will operate one of the large buses for the students residing in Mokena and Frankfort.

Howard Jackson, instructor and auto driving teacher, will drive the small bus in the Mokena rural area.

Arthur Kampe will drive for the rural area around Frankfort and Lincoln Estates.

Roland Cagwin will drive the large New Lenox bus, and Harold Weber will drive the rural route in the New Lenox area.

Glenn Young, a Lincoln-Way teacher, will drive the Manhattan bus.

Lincoln-Way PTA To Be Formed Soon

Shortly after the new school year opens, an invitation will be extended to all parents and Lincoln-Way friends for the purpose of forming a Parent-Teacher group. There has been considerable interest already indicated for this organization, and the teachers are looking forward to this means of becoming better acquainted with the community and parents.

Social Studies And Language Arts To Receive Emphasis

In the areas of social studies and language arts there will be a high degree of correlation in terms of course content and objectives. The teachers in both these areas will do a considerable amount of group planning throughout the year.

The social studies classes are specifically charged with the responsibility of effective citizenship training. With this end in mind it is planned to provide as many actual practices as possible in the area of citizenship education. These citizenship skills are best learned through active participation. Whenever possible and practical students will be given an opportunity to demonstrate these skills in real life situations. These practices are especially important in a new building where ample opportunities exist for service to the school. Close cooperation is planned with the Illinois Curriculum Citizenship Education program. Consultant help from the state universities will be made available for use by the staff at Lincoln-Way whenever necessary.

These proposed laboratory practices in citizenship education should be real services to the community as well as to the school. Many of the local citizens will be called upon for assistance especially in the area of local government. Within recent years in the state of Illinois many of the schools have cooperated with local officials in gaining a better knowledge of community problems and working toward the solution of these problems. Numerous examples are available of schools that have helped to get out the vote in the community; organized recreational facilities for teen-agers; aided towns and cities in safety campaigns.

Proper emphasis will be placed too upon the democratic heritage and the importance of this heritage in the world of today.

The social studies program for the first year at Lincoln-Way will include the following courses:

9th grade - social studies (required).

10 grade - world history (elective).

11th grade - U.S. history (required) geography, world history (electives).

12th grade - Senior Social Problems (elective) geography, world history (elective).

In the language arts field every effort will be made to increase the ability of the youngster to communicate more effectively. Teachers of English carry a special responsibility in terms of citizenship education. As far as the content of the language arts program is concerned it will include the study of the English language with special emphasis upon critical thinking. The mass media of communication, radio, television, newspapers, magazines, will be studied. There will be a study of people as portrayed through the literature of their country. The study of literature for its own sake and for aesthetic appreciation will be encouraged.

The curriculum in English may be organized around centers of units of experience as the program develops. Three years of English are required in the school program and the fourth year may be elected for the seniors. In the "School of Tomorrow" report by the office of Field Services of the University of Illinois, it is suggested that if the community, board of education, and staff of District 210 are sufficiently interested, the following courses will be encouraged.

The use of color throughout the interior of the school is remarkable and must be seen to be appreciated. The different pastel color schemes are both beautiful and practical and should be most conducive to study. The acoustic tile ceiling treatment is seen throughout the office, classrooms and hallways. Modern fluorescent lighting is carried the full length of both the first and second floor.

Continued on Page 2

Lincoln-Way H.S. Is An Example Of Excellent Planning

An event is occurring in our territory that never has occurred before and never will occur again that is the opening of our first high school which will be Tuesday, September 7. There may be more high schools in later years or additions, but never again the opening of our first high school. This is history!

If our pioneer people could walk or drive on our highways, or trek through our territory today, they would gaze in amazement when they came to the beautiful building which everyone proudly explains. "That is our first high school, the Lincoln-Way high school." Even many of our older generation today can hardly believe their eyes when they see the new building. It is hard to believe that we have a high school of our own. Located on Lincoln highway, the Lincoln-Way Community High School, district 210 actually includes two and one-half townships, within which are the villages of Frankfort, Lincoln Estates, Mokena, New Lenox and Manhattan. In 1951 the citizens of this area voted to form their own high school district. Previous to this time students had been attending high school at Joliet, Chicago Heights, Peotone and Orland Park.

In June 1952, a bond issue was passed by the voters of the area totalling \$1,200,000 and at the same time, the present site was selected. These two propositions, carried by a majority of about seven to one, clearly indicated the desires of the community to have its own school.

The first members elected to the board of education have continued through the entire building program and are still serving faithfully in this same capacity. They are A. H. Krusemark, president, Frankfort; J. Earl Robinson, secretary, New Lenox; Lawrence Kohl, Mokena; George Bovee and Lester Case, Manhattan; Raymond J. Reiter, New Lenox; James A. Dixon, Lincoln Estates.

The residents of this district probably will never know the man hours of planning and discussion (carried sometimes far into the night) which were contributed by these individuals, serving without pay, as members of the board of education.

A. Hunter Chapman, principal of the new school says "we owe a great deal to the members of the board. They have given generously of their time and have been most cooperative in the joint effort to complete this project." The results are obvious.

Approaching the school from Lincoln highway, one is immediately aware of the beauty and simplicity of design achieved by the architectural firm of Childs and Smith, who also supervised the construction of the building. Their plans were carefully made after the original study and survey was completed by the Citizens committee and the office of field services from the University of Illinois.

The use of color throughout the interior of the school is remarkable and must be seen to be appreciated. The different pastel color schemes are both beautiful and practical and should be most conducive to study. The acoustic tile ceiling treatment is seen throughout the office, classrooms and hallways. Modern fluorescent lighting is carried the full length of both the first and second floor.

Continued on Page 2

SCHOOL OF TOMORROW

(Continued from first page)

many new modern features make both the inside and outside of the building a thing of beauty. The interior of the building provides for well lighted and well ventilated rooms along with comfortable and modern furniture, and all other equipment necessary for the teachers to achieve a high degree of educational progress.

Throughout all of the many meetings and deliberations held by the board members, the board of education has constantly kept in mind the one question: "What is best for the young people of the school district?" Every decision made by the board has resulted from this philosophy. In addition to this educational belief, there have been certain financial limitations which have naturally had some bearing upon the ultimate outcome. The board has tried to render the greatest saving in the long run to the taxpayer, and to make the bond money go just as far as possible. All contracts were awarded to either the best qualified or the lowest bidder, and practically all bidders were representative of reliable firms in the area.

The new high school building does belong to the people and taxpayers residing within the

school district, and also to all the future generations and, future taxpayers during the next twenty years. The board of education does appreciate the tremendous support and interest that it has received during the past three years, and invites even more active participation in the future. The board realizes that it must receive help from the citizens and lay people and they will always cherish any constructive criticism for the benefit of everyone concerned.

LINCOLN-WAY H.S.

(Continued from front page)

halls. Office, classroom and corridor floors are hard rubber tile. Next to the principals' office on the first floor is a small room containing console-type control board for the Inter Communication system. With the proper switching arrangement it enables the operator to hold a two-way conversation with the occupants of any one room or all rooms in the school. Its flexibility is such that FM music may be heard in the dining room, phonograph records heard in the gym, and a conversation carried on with the library, all at the same time.

The IBM clock and signal system is unique in its operation. A master clock in the office con-

trols the individual room clocks to reset and maintain accuracy at all times and also to signal the beginning and end of each class period. By means of proper switching, students outside of the building can be recalled a few minutes ahead of those within the building.

Classrooms on the first floor at the front of the building will be used for the teaching of mathematics, physics, chemistry, biology and general science. There is also a darkroom to be used for photography. The classrooms have room darkening venetian blinds and drapes for visual education requirements.

Across the corridor is a home making clothing and food laboratory. Complete in every respect, it contains electric sewing machines, a refrigerator, a deep freeze, gas and electric range, and kitchen equipment for the preparation of food of any kind. Tubs, washer and dryer are there for the instruction of future home makers in correct laundering methods. In one corner of the area a completely furnished living and dining section is available for the serving of food prepared in the class.

At the east end of the building is located the arts and crafts department. The drawing room, wood-

Here are the members of the first band of Lincoln-Way at a practice session. Photo by Robert Porter

A faculty room is also located here for conferences.

On the second floor, next to the study hall, the large library is located. When completely stocked, it will contain over 1200 volumes from the state

branch library at Kankakee in addition to many other books.

The east and west walls of the library are covered with a decorative wall paper which portrays replicas of the official seals of all the states and territories.

Across the corridor are rooms for the teaching of social studies history, English, bookkeeping, and shorthand, office practice and typing. A faculty conference room is also located on this floor.

At the west end of the main building is located a modern kitchen and cafeteria with the latest stainless steel equipment for serving of meals at cost. A small stage is located in the cafeteria for dinner meetings and PTA programs.

The huge gymnasium can be separated by a folding door, which will provide separate smaller gyms or facilities for meetings as required. Folding bleachers permit the utilization of all of the floor space avoiding the waste space created by permanent structures.

The board of education plans to complete the auditorium which will seat 635, just as soon as possible. Approximately \$50,000 will be needed for this work. In the near future several extra classrooms will be needed; however, provisions have been made for these additions and they will join the art and crafts room on the north.

A large number of adults are anxious for the swimming pool to be constructed on the west side of the gymnasium. This project will cost about \$160,000 but

cannot be voted upon until some of the present bonds are retired. The building construction cost amounted to \$1,160,214 and equipment \$83,700. The 70 acre site cost \$28,000.

SOCIAL STUDIES

Continued from front page

ficently interested, the English, social studies and possibly general science at the 9th and 10th grade levels could be offered within the framework of a Common Learnings program. These courses represent the area usually referred to as general education. This Common Learnings course would be organized around major resource units dealing with vital social and personal problems. Subject matter would be used as it relates to the problem area under study. The larger bloc of time allows the group more opportunity to work together on these problem areas. Such a program would need careful study of the staff, board and school patrons. However, it might be that Common Learnings could be a future goal to work toward if sufficient interest is shown.

GENERAL AGRICULTURE

A course of study, including in a general way, work in all phases of animal husbandry, soils, crops and fertilizers, farm

management and farm shop work.

It is primarily for students who have an interest in agriculture but who do not intend to farm. A home project is not required to qualify for General Agriculture.

The purpose of the course is to better acquaint students with agriculture in general and problems of the farmer.

Business Dept. Is Well Equipped With Modern Facilities

Lincoln-Way typing students will have the very latest in equipment, with one-third of the typewriters being the new I. B. M. electric machine. The individual tables have been designed for as near perfect performance as possible. All typists will have posture-adjustable chairs similar to the kind used in business offices.

In addition to the finest equipment, Lincoln-Way will have a former world's record typist as the instructor, Mr. J. Bryce Sardiga.

Besides the typing room, a small office practice room separates the typing area from the bookkeeping-shorthand room.

A Salute To Lincoln-Way School And A Tribute To The Citizens Of School District No. 210

We congratulate the people of this area who have had the moral courage to provide a high school for the present generation and those to come.

We are proud of this, our first high school, its board of education, principal and faculty; may they always be a source of inspiration and guidance to our children and teach them to be American citizens of the highest and noblest kind.

Library To Serve A Double Purpose; Reading and Study

The new library, located on the second floor, is one of the most outstanding rooms in the entire building. Looking out of the library windows to the north, the student has a wonderful view of the school campus as well as the forest beyond the Rock Island tracks.

The library itself will accommodate approximately 65 students, and will serve as a study and reading room for the students during their study halls. The librarian has an office and working area in the front of the room with an enclosed students' committee room connecting with the office at the west end. Lighting was carefully planned to eliminate any eye strain and to make reading much easier. In addition to using the natural light from the north, there are several fluorescent fixtures mounted flush with the ceiling. There is an informal reading area located in the middle of the library for students with some leisure time and desiring to read either current magazines or newspapers. This particular area has typical living room furniture with a carpet, reading

lamps, tables, lounge chairs, and floor lamps. The room itself is beautifully decorated with venetian blinds and panel drapes along the northern windows, and unusual wall paper at east and west ends of the room. The wall paper shows the replicas of all the state official seals, as well as many territories and other historical pictures.

A spacious study hall joins the library on the east and will accommodate approximately 60 pupils. The two rooms are separated by a partition and two double doors. Students will have easy access to either room without any great loss of time in securing their necessary books and equipment.

Furniture in the library will consist of both rectangular and circular tables with individual chairs. In the study hall, the furniture will provide individual seat and desk combinations. All of this furniture in both rooms is of the latest design with considerable attention given to the comfort and posture of the students.

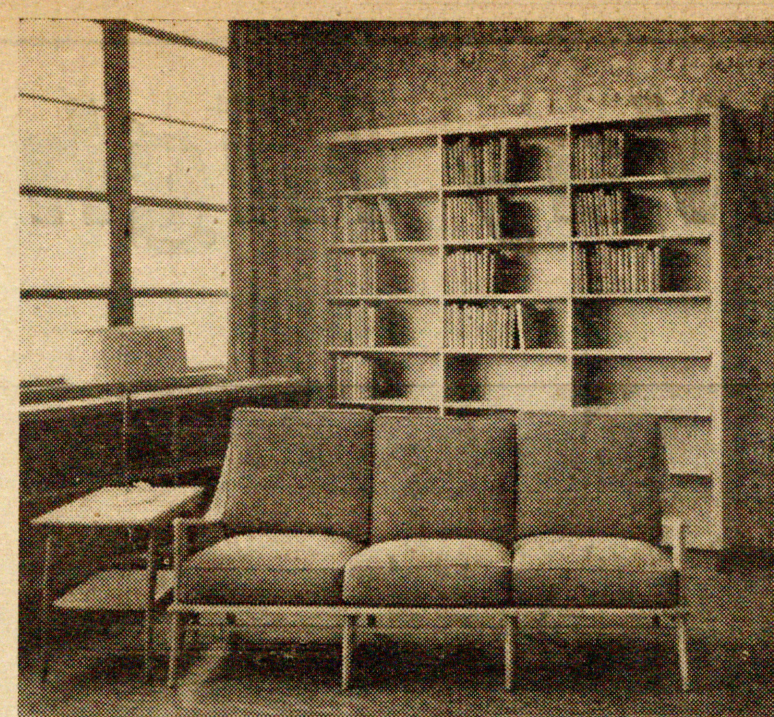

"Education is the most important subject which we as a people can be engaged in." From a speech made by Abraham Lincoln the first time he was running for the state legislature in 1832.

Cafeteria Kitchen Is Equipped With Modern Facilities

A cafeteria, equipped to serve 200 students every 25 minutes, is also so designed for a public meeting place and student recreation. A small stage is located at the east end of the room with two large storage areas located at each end of the stage. All cafeteria tables and benches can be quietly folded and rolled back into these storage areas.

The kitchen has the latest equipment, all stainless steel counter tops and tables, automatic dish washing machine, vegetable peeler, three electric ranges, two large refrigerators, steam table, salad table, and ample storage space for dishes and utensils. Students return their dishes to the kitchen where they are first cleaned, then sprayed, after which they are placed in the dish washer. Here they are washed for 40 seconds in 140 degree water and rinsed for 15 seconds in 180 degree water.

Student lunches are to be served under the direction of the State Superintendent of Public Instruction office. Certain requirements and standards are

A corner in the library, showing just a small portion of shelves which contain the many valuable books necessary for pupil study. Good light and comfortable seating provides study on the spot. Many tables are also available. One wall of this room is covered with paper containing a pattern depicting replicas of official seals of each State of the Union.

Photo by Robert Porter

necessary in order to receive this subsidy. The amount of this subsidy varies from month to month, and as a result, the price of the meals to the students will vary. The charge in the beginning will be 30c per lunch which includes milk and usually some light desert. The state requires at least one hot dish and the milk. All students will receive the same lunch. Those desiring to bring lunches from home will eat in the cafeteria, and can buy milk extra if they so desire.

The school lunch program is operated on a non-profit basis for the students and for the tax payers alike. The revenue from the lunches, plus the above mentioned subsidy, usually provides sufficient funds. The board of education has consented to the operation and direction of the program, and the actual management will be taken over by the school administration.

Mrs. Irene Sheldon of Joliet has been employed as the head cook, and she will be assisted by Mrs. Paul LaVinn and Mrs. Vivian Kluth of Lincoln Estates.

Mrs. Sheldon has several years of experience in cooking for large groups of adults and school children.

Students Showing Skill Assured Good Business Education

Business Education

The business education at Lincoln-Way is organized to offer a complete program so that the students can go out and handle an office position efficiently. Too, the students will be able to pass the Federal or State Civil Service exam with ease.

Courses that will be offered with the opening semester are: typing, shorthand, bookkeeping, retailing, and office machines. Secretaries have a skill which opens the door to any business that they may wish to enter, or to any department of any business.

This skill helps them find employment for any talent they may have, or for any interest they may wish to indulge or develop.

It helps them find employment for other kinds of training, and for any specialized knowledge they may have, in organizations which can make full use of that training or knowledge.

Secretarial skills have been doing these things for countless thousands of young men and women, for many, many years. In the office practice classes

the student will have an opportunity to use various office machines such as, calculators, mimeograph, ditto, adding machines of various types, stenograph, filing etc. This course should be of interest to the young man or woman who wants a knowledge for various types of office and clerical positions.

Students that are interested in selling, a field in which there is always a great demand, should enroll in retailing.

Bookkeeping should be considered by all students interested in any phase of clerical or office work. A student who is interested in the "top" position should know some bookkeeping.

One finds the business department at Lincoln-Way very well equipped with the most modern facilities in the country. Through out the department one finds posture chairs, desks of proper height, latest typewriters, including 14 IBM's, and all up-to-date office machines.

The student that takes a business course can always be assured of a position for the demand is far greater than the supply each year.

For more news concerning the Lincoln-Way high school, turn to pages in the regular section of this issue.

A small portion of the home-making department is shown here which covers mostly the cooking and preparing of food with many cupboards. Adjoining this on the south side is an area containing comfortable and practical furniture with a dining table and chairs where students are shown the proper way to serve the meals they have prepared.

Lincoln-Way High School

Americans are builders by tradition and the General Contractor together with the Sub-contractors listed on this page are proud of the part they have played in creating a school building as fine as Lincoln-Way.

We congratulate the people of this community of villages for their wisdom, foresight and determination to have a high school for the children of this area.
